

Klixite Web Solutions
Standard Charges

Our Charges

Standard Charges:

We quote works dependent on anticipated completion time. We are happy to work to the fixed price provided, or a flexible hourly rate scheme.

Fixed Prices:

Our fixed prices will remain fixed, we will not charge more if we exceed the number of hours anticipated for the work that has been detailed.

Flexible Hourly Rates:

We have two Standard hourly rates, £45 p/h for html design and £60 p/h for programming. These rate can be reduced by subscription to a maintenance contract (minimum term: 12 months).

Additional charges:

As your project begins to take shape you may realise additional functionality would be useful or even vital to the successful day-to-day workings of your site. Depending on the urgency of these updates, we will provide you with an additional quotation during development or on completion of any outstanding works.

Maintenance Contracts:

All of our maintenance contracts include our **Klixite Unlimited Hosting Account**. There is a minimum term of **12 months for each account**.

Maintenance Contracts

Terms: Development hours CANNOT be used to create new sites or, for maintenance on any sites other than the site specified in your contract. All search engine optimisation is considered independent to any maintenance contract. Development hours within a maintenance contract can be used for html design or programming.

Maintenance Type	Price per month	Included hours (p/m)	Additional hours rate	
			HTML	Programming
Professional	£540 p/m	12 hrs	£30 p/h	£45 p/h
